

NIEPRES JOHN A. ARROGANTE

Full Stack Developer | Web & Mobile

Valencia City, Bukidnon, Philippines | 09764921308

dev@niepresjohn.com | niepresjohn.com

SUMMARY

Full stack developer with 3+ years of experience building web and mobile applications, SaaS platforms, and business websites. Recent work spans messaging and CRM systems, multi-tenant telecom platforms, and home-services marketplaces. Hands-on experience with React, TypeScript, Node.js, PostgreSQL, and React Native/Expo, including API integrations, background processing, automated testing, and server management.

WORK EXPERIENCE

Softlink IQ | April 2026 - October 2026

- Developed TextStream and IQ-CRM messaging platforms using React, TypeScript, Node.js, Express, and PostgreSQL, supporting SMS/MMS, voice, email, campaigns, and sales pipelines.
- Built Number Hub features for multi-tenant phone-number management, campaign reporting, and GoHighLevel integrations, including campaign-scoped APIs and embedded communication tools.
- Implemented BullMQ/Redis background processing and usage-based billing workflows; improved webhook validation, credential encryption, and tenant isolation.
- Developed ServiCasa web and React Native/Expo applications with booking management, provider workflows, sales-assisted bookings, role-based navigation, and English/Spanish interfaces.
- Added regression and integration coverage and supported browser/mobile testing with Vitest, Playwright, and Maestro; worked with Docker/k6 load-test tooling and GitHub Actions workflows.

Carbon Sync | February 2026 - May 2026

- Developed client websites and platforms using Next.js, TypeScript, and Tailwind CSS for a startup serving clients across industries.
- Delivered responsive web applications with server-side rendering and lead-generation features.

JobsHub | March 2026 - April 2026

- Developed a talent marketplace connecting Filipino freelancers with employers using Next.js, TypeScript, Tailwind CSS, and Supabase authentication and database services.
- Implemented skill-based matching, gamification, referral milestones, Stripe payments, and Framer Motion interactions.

TheListingHub | September 2023 - October 2025

- Developed a real estate platform with property listings and sponsor-share selling features; built and deployed a mobile app to the App Store and Google Play.
- Created sponsor-specific funnels and asset promotion pages; integrated GoHighLevel for lead management and marketing automation.
- Managed AWS EC2 hosting infrastructure and configured Google Analytics, Meta Pixel, and Conversions API tracking.

Olympus Precast Company | December 2024 - March 2025

- Built a WordPress/Elementor Pro website showcasing precast concrete products, specifications, completed projects, and construction services.
- Integrated an AI-powered chatbot for product questions and customer support, alongside business inquiry and project request features.

Honeydid | September 2024 - March 2025

- Developed a two-sided home-services marketplace connecting homeowners and providers using React, TypeScript, Node.js, and Tailwind CSS.
- Built provider profiles, service requests, search/filtering, booking and scheduling, and ratings/reviews; integrated APIs, HubSpot workflows, and analytics.

WORK EXPERIENCE - CONTINUED

The Rex Theater | August 2024 - November 2024

- Developed a WordPress/WooCommerce movie ticketing website with Box Office integration for online ticket purchases and booking confirmations.
- Created categorized movie listings, scheduled showtimes, event management, and theater information pages using Elementor Pro; embedded Google Maps.

Fiksai | May 2024 - July 2024

- Developed a WordPress/Elementor Pro marketing website for a workplace communication product and Chrome extension.
- Integrated Zapier and ConvertKit workflows for email capture, beta tester recruitment, and launch communications; created product education and onboarding content.

Michael Cortina | September 2023 - October 2023

- Built a personal branding and consulting website with WordPress and WPBakery, showcasing services, media mentions, testimonials, and speaking engagements.
- Customized responsive layouts and interactions with CSS and JavaScript; structured inquiry calls to action and credibility-focused content.

GoodyWeb | July 2023 - October 2023

- Developed Laravel business portfolio websites for local clients, translating individual requirements and branding into custom web pages.
- Delivered responsive layouts and business-specific content to present client services across desktop and mobile devices.
